PASSION & PRACTICE:

I'm a traveller and Playstation gamer that enjoys solving code challenges, and taking part in hackathons.
I've worked closely with UX and UI designers in cross-functional teams to develop applications for various purpose-driven organisations.
My passion is building accessible products by writing scalable, reusable and optimised code. I strive to implement best practices in every project I tackle with a **"Build it right"** mindset.

COMMUNITY INVOLVEMENT:

- **RegEx Guru**
  @ WooliesX Bid Site for OzHarvest
- **Developer**
  @ Random Hacks of Kindness, Au
- **Speaker**
  @ Coder Academy
- **Speaker**
  @ Ruby On Rails Oceania

I CODE IN:

- Javascript / ReactJS / NodeJS / ExpressJS
- HTML
- CSS / SASS / SMACSS methodology
- Ruby on Rails

EXPERIENCE:

Intern Developer

WESTPAC   **FEB 2019 - PRESENT**

Responsibilities:

- Worked with the Innovation team and built prototypes for a range of up-and-coming products and services.

Fullstack Developer

INVESTING FOR CHARITY LTD (I4C)   **JAN 2019 - PRESENT**

I4C's mission is to build a charity fund service targeted for mass-affluent donors.

Responsibilities:

- Responsible for structuring the project, considering project tooling, liaising with the stakeholders, and advising team in problem-solving.
- Advocated for accessibility, optimisation and CSS best practices by modularising website components as part of building the design system for scalability.
- Developed a new website and Donor portal application Proof Of Concept (POC) using ReactJS.

Fullstack Developer

UMBO   **NOV 2018 - JAN 2019**

Umbo provides early and consistent access to therapists for kids with special needs living in rural areas. We developed a working prototype to aid in getting the right stakeholders onboard.

Responsibilities and Accomplishments:

- I developed the patient login and dashboard, from signup to being matched with appropriate therapists and scheduling their appointments.

Bookkeeper & Office Manager - Dabbling in Development

VARIOUS   **NOV 2007 - JAN 2019**

Find out more at linkedin.com/in/ivanrahn

Accomplishments:

- Utilised Javascript to optimise processes, resulted in a decrease of 12% on business expenses.
- Co-developed customer relationship management database that allowed for better workload allocation, and increased customer retention.

EDUCATION:

Diploma of IT, Web Development

CODER ACADEMY, SYDNEY, AUSTRALIA   **2018 - 2019**

Bachelor of Commerce / Accounting

UNSW, SYDNEY, AUSTRALIA   **2009 - 2011**
